RE: PDR#2013-003 Seattle Police Department's Online Police Reports Web application source code

Dear Mr. Mocek:

On January 30, 2013 you submitted a records request to the Seattle Police Department. On February 6, 2013, your request was referred to the Department of Information Technology (DoIT) for potentially responsive records.

You requested the following:

Source code for the Seattle Police Department's Online Police Reports Web application, along with associated metadata and revision history.

Information that would provide access to the Seattle Police Department's database and other City databases has been redacted throughout the responsive records. This information is exempt under RCW 42.56.420(4), which exempts "[i]nformation regarding the infrastructure and security of computer and telecommunications networks, consisting of security passwords, security access codes and programs, access codes for secure software applications, security and service recovery plans, security risk assessments, and security test results to the extent that they identify specific system vulnerabilities." Providing unauthorized access to the City's databases could compromise the security of those databases, impair the City's ability to perform vital governmental operations and inhibit the City's ability to provide a response in an emergency.

Records responsive to your request have been burned to a disk and are ready for you to pick up. This can be picked up at our offices (Seattle Municipal Tower, 700 Fifth Ave, Suite 2700) or mailed to you. The disk costs \$1.00. It will cost an additional \$2.00 to mail. We require payment when the disk is picked up or prior to it being mailed. The disk will be available to you for the next 30 days. Please let me know how you would like to proceed.

This satisfies your request and it will now be considered closed. If you have any questions, please feel free to contact me.

Very truly yours,
Megan Coppersmith
